

Design & Technology

All children – regardless of gender, starting point or background – will have the opportunity to engage with a high-quality design technology education. They will be equipped with the knowledge, skills and vocabulary to use creativity and imagination to design and make products that solve real and relevant problems in a variety of contexts. We intend to inspire a sense of enjoyment and curiosity about design technology.

Textiles – Templates & Joining Techniques

Spring 1

Igniting Prior Knowledge:

- Year R (Expressive Arts and Design)

Creating with Materials

- Materials have different textures.

New Knowledge:

- There are a wide range of different materials e.g. felt.
- Fabrics can be joined using different techniques e.g. gluing, stapling.
- A template is a shape used to help in cutting out shapes.
- Layering is when you overlap a fabric item onto another piece of fabric by e.g. glueing
- Finishing techniques can be used to improve a product

Key Vocabulary:

- Template
- Fabric
- Felt
